*Dear Ivan.*

I am writing to thank you for your assistance throughout ARUNTA's IMAV06 and the unscheduled docking to repair the port OD Box. Your team's flexibility and understanding during this period were outstanding, in particular that of Stuart Barnett and Ernst Lamaitre. The extreme hours you worked in the less than ideal working environment were a credit to your company.

Your staff have played an important role in helping to make ARUNTA a fully operational warship ready in all respects to fulfill her tasking on the forthcoming deployment.
